 Ultrasound- Category I: 2

Approved Ultrasound Training Courses

The following list of training courses has been approved by the MIBoC Technical Committee as having met the pre-requisite training requirements for eligibility of the certification examination at the specified Category.

Please note that if more than one course is listed for a training organisation then all courses need to have been completed in order to meet the requirements.

You will be required to provide evidence of training completion from the approved training course, by providing a training course completion or attendance certificate, for the training requirement to be met for Certification.

For any queries, please contact the MIBoC Certification Manager at certification@mobiusinstitute.com
